

Exciting Testimonials!!

DYNAMITE® DOES Make a Difference

“I have some exciting, wonderful, news; at least I think so! All of the horses that are on the DYNAMITE® minerals do not have bot eggs on them! We are all so surprised and pleased. Every other year we have noticed them in the fall.

Another positive note is that all of our horses are so much softer; their coats and manes and tails. This was noticed when I took Lilly and my daughter’s horse Strut on a community ride. Both we and some other people noticed the difference between ours and the other horses...”

— Patrice Sager, Product Representative, VA

“About 7-8 years ago, the joints in my hands, knees and feet, and the varicose veins in my legs, were so sore and swollen I was not sure I would be able to continue working with our horses. However, within the last 5-6 years, ever since I finally started to listen to my wife, Rowan, as she was talking on the phone with people about DYNAMITE®, I started to realize that I might be able to do for myself what I had witnessed happening with our horses. As far as I am concerned, these DYNAMITE® products have saved my life. My physical health is better at 68 than it was at 50!

I believe in the basics of **Dynamite Plus™, Tri-Mins™ Plus**, and drink my **Elixir™ & Catalyst Water™** mix daily, but what made the final difference for me was adding in **Herbal Green, IZmine™** and **Free & Easy™** about 4 years ago. Rowan also recommended I take **Zinc+** because of my age, although, since I had no prostate problems that I know of before, I am not feeling any difference now. As for my health, I can work alongside my 38 year old son at the same rate of speed whether it’s throwing hay bales, building heavy panel fences, or whatever with hardly a sore shoulder. Even my knees are so much better, only giving me trouble when low pressure hits, and my varicose veins have almost disappeared. I never get sick, but if I do feel a little cold coming on, I “pop” a **Hiscorbadyne®** or two for a few days and continue working right through it.

I feel that I have benefited from DYNAMITE®’s teachings every bit as much as our horses and dogs have. I honestly don’t think I could have done so astoundingly well without the benefit from these superior products!”

—John Hanna, CO

“Our gelding won Grand Champion Bella Forma at the Colorado State Fair this last August. I bathed him 2 weeks before the fair (DYNAMITE® All-Natural Shampoo and Conditioner, of course!) and just gave him a little “brushing up” before the class, he sparkled like a diamond thanks to DYNAMITE®!! My stallion got Reserve Champion (his behavior was a little frisky~he doesn’t get out much) but people came up to my husband Art and I and remarked about his exquisite golden color. Well, we all know it is from DYNAMITE®! I did have to give my stallion a cold bath early in the morning, apparently he had been released (probably from a “fellow” competitor) from his stall two times that evening after Art and I had left the grounds. I am making no assumptions, but, several mares came into heat that evening/ morning much to the mare owners distress (they had children riding them). After I “made my point clear” with property security about the fact that someone was messing with my stallion, I did bring up the subject that not only did he behave properly with the mares, he knew which mares would and could be breed. Funny, my stallion, after investigation, only teased around the Paso Fino areas. Well, after my ranting, he won High Point at the State Fair after a “Good night out”. Now we all know that takes some stamina, ya know, flirting all night, showing all day!”
