

# DYNAMITE® Letters of Excitement!

Submitted by Various DYNAMITE® Representatives

## RELEASE, RELAX AND TRANQUIL

"My friend Lydia came to visit and while she was here, she had this cough. I asked if it was allergy related and she said that she didn't think so because it hadn't gone into anything. She said that she was unable to take a full breath. I suggested **Release** whenever she began to cough. She tried it and while we were sitting there, she said "That is the first full breath I have been able to take in a long time." I gave her the **Release** and told her to keep on using it. Again, another example of how DYNAMITE® works.

Another situation that I would like to share is that our Australian Shepherd, Mattie, in the past year has developed a fear of popping noises, like fire crackers, bubble wrap and crowds. She gets extremely nervous and wants to hide. I decided to try some **Tranquil** both during one of those moments and before she goes to a soccer game with us and lo and behold, she handles the situation much better. I imagine **Relax** would have the same effect. Thanks DYNAMITE®!"

-Andrea Purdy, DYNAMITE® Manager, CO

## WOUND BALM & RELEASE

"The horse that had the inflammation in the pastern region is responding beautifully to the **Wound Balm** and the **Release**. The owner can't believe it and neither can the doc who I referred the case to! She just went in for her recheck and progress is impressive. No bute! No DMSO! No steroid injections, which, unfortunately, is what [the other clinic] was doing to her. So that is a success story! Thanks again!"

-Courtney Diehl, DVM, DYNAMITE® Supervisor, CO

## I LOVE DYNAMITE®!

"You know, I think people always resist new things until they are desperately in need and they are willing to try anything - then depending on how that "something" helps them in their moment of need determines if they are going to go back to that or not.

It was like that with me and DYNAMITE® - I always knew it was good stuff but I didn't really have to use it at the time. But this past week since I have been using it regularly - I LOVE IT!! It's so powerful - the problem isn't fixed yet but I already feel completely different than I did last week - I have whole new set of symptoms which are definitely more mild - it feels like I just went to a deeper level, and it only took a few days rather than weeks. Thank you for introducing me to DYNAMITE®, Gretchen!!!"
